POPOSTER PRESENTER OVERVIEW

Posters provide a more graphical presentation of papers judged to be of high interest to a narrow audience or that would best be presented in a more graphical format.

USE OF ABSTRACT AND TECHNICAL SUMMARY FOR PUBLICITY PURPOSES

In the past, several technical journals have requested additional information about papers to be presented at the Symposium for press coverage purposes. We would like to accommodate these requests by providing information from your abstract and/or technical summary. If you do not want your technical summary released to the press, please contact Neal Leavitt as soon as possible at (760) 639-2900, PRESS@sid.org, Leavitt Communications.

SPEAKER REGISTRATION AT SID

All speakers are required to pay registration fees. Speaker registration forms will be emailed to you in several weeks. Or register online at www.displayweek.org

General

1. POSTER FORMAT. The key guideline is that the poster should not be a copy of the manuscript; instead it should consist of one page (slide), comprising a few large graphs/illustrations annotated clearly to show the viewer why each is significant, with only enough text to headline key points like purpose, conclusions, and impact.

2. PREPARATION. Considerable time should be taken in the preparation of the Digest material and presentation of your poster. The two should have nothing in common but subject matter. Concise writing is one thing, and a clear, graphical representation is another. You will have an opportunity to record a short (5 minutes or less) presentation over your poster slide. If you decide to do the recording, please do plan to allow yourself plenty of time to prepare for the specific task of making an oral presentation.

3. UPLOADING YOUR PRESENTATION. All presenters are required to upload their presentation to the Cadmium Harvester Platform.

4. RECORDING OPTIONS. Once your slide is uploaded, you may record over it within the Harvester.
During the Show

CHECK YOUR Q&A. Each pre-recorded poster presentation will offer viewers the chance to ask questions via a text-based Q&A panel. You should check your presentation Q&A twice a day after your presentation launches and for the length of the show (through Friday, May 21) so you can provide answers.
