# EXHIBITORS' FORUM INFORMATION

Display Week 2023 will once again include the **EXHIBITORS' FORUM.** As always, the Exhibitors' Forum is your chance to tell your company's story in a 15-minute presentation, which is included with your exhibiting package. The forum provides exhibitors with a dedicated platform for greater exposure to attendees who want to know more about their company's goods and services. The forum will feature scheduled presentations from several Display Week 2023 exhibitors, but **space is limited.**

**General instructions:**

- Presentations can cover technology, products, services, and other topics. We ask that you include technical content to attract the widest attendance.
- We will group the presentations by subject matter, and they will be placed in the appropriate topic area throughout the Symposium.
- **An abstract is required if you choose to participate in the Exhibitors' Forum. Please click here to submit your company information and 35–50-word presentation description.**
- **The deadline -- March 1, 2023.** Spaces are limited and will be filled on a first-come, first-served basis.
- Shortly after the abstract submission deadline, you will receive further instructions.
