CALL FOR PRODUCT INFORMATION

INFORMATION DISPLAY MAGAZINE

DISPLAY WEEK 2023 SHOW ISSUE: "PRODUCTS ON DISPLAY"

DEADLINE: March 1, 2023

In its May/June 2023 issue, Information Display magazine will include a Products on Display feature devoted to products shown at Display Week 2023. This is a great platform for showcasing a special product that you will be showing, or perhaps introducing, at Display Week. The magazine will highlight one product from each exhibitor. The deadline is March 1, 2023.

Please submit your company name and URL, a product description (100 words or less) and a high-resolution color product photograph with a file name containing your company name to the Products on Display submission site. The photograph file must be at least 266 ppi. Accepted formats are, JPG, TIF, or PNG.

Please be on time with your submissions. Unfortunately, we cannot accept late submissions due to pre-show publication deadlines.

As always, let me know if you have any questions.

Please direct all questions to Danielle Rocco.
